

WEIGHT SCALE

The scale measures body weight. You can weigh yourself anytime and all the data will be uploaded to your healthcare provider digitally in seconds. User-friendly, plug and play design. Works with all major cellular carriers globally. Auto calibration, high precision sensors measure in increments of 0.2 lb, 0.05 kg with 600lbs, 272kg capacity. 4 high sensitive electrodes. Monitor your progress, help motivate toward reaching your goals, save historical data, and track your daily, weekly, and monthly progress.

FEATURES

- 4G cellular-enabled
- Automatically powers off after 10 seconds
- Voice enabled readings
- LCD display
